Home Setup

www.cybergb.com

A Standard Home Setup Costs: **\$125.00**

What does a Home Setup involve?

- 1) Setting up your new PC or Laptop
(tower, monitor, keyboard, mouse and surge protector)
- 2) Installation of your printer
- 3) Setup pre-existing Internet service and email account
- 4) Configuration of your Antivirus software and security settings

Options for Additional Service:

In addition to what is included in a standard home setup, for an additional fee, we also offer other in home services with the delivery of your new PC.

- Setup of wired or wireless network (up to 2 additional PCs): + \$50.00
- Installation of software onsite (per application): + \$25.00
- Setup of old peripherals (other than a printer): + \$25.00
- Installation of new Internet service & eMail: + \$50.00
- Onsite Hourly Rate (for additional services): \$95.00/hour

Our Service Writer will contact you within 3 days from the time the system is purchased to arrange the home setup appointment. Additional services may be requested at that time.
